The Male Uprising in Guernsey (MUG) is a Guernsey Charitable Trust Registration CH399 which has taken inspiration from the achievements of the Pink Ladies in the Bailiwick of Guernsey.

MUG's focus threefold. To increase awareness, promote education and raise £250,000 over the next three years. Funds will be used for research into testing, cures and treatments in the areas of prostate, bowel and testicular cancer. The aim is to get men, whatever their age, to be more confident, outgoing and questioning of their symptoms. They should also seek medical advice and assistance at the earliest opportunity as procrastination or delays can have deadly consequences. Women are also encouraged by MUG to nag the men in their lives to get tested!
